Profile

Experienced Frontend Developer specializing in React JS with a track record of leading successful development projects. With a Bachelor's degree in Electronics and Communication Engineering and over 2 years of industry experience, I excel in crafting responsive and accessible web applications. Proficient in a range of frontend technologies including Redux, React Router, HTML, CSS, and JavaScript, I collaborate closely with cross-functional Teams to ensure alignment with client requirements. My strong communication skills and commitment to user-centric design enable me to effectively mentor and guide frontend development teams.
