Profile

Software Engineer specializing in React JS and React Native. Currently at Optum, delivering high-impact healthcare mobile features and developing AI-driven automation tools. Proven experience in UI performance optimization, system migrations, and building RAG-based intelligence systems.

Experience

- Apr 2025 – **Associate Software Engineer, Optum (UnitedHealth Group), Hyderabad**
Present
- Developing the **UHC Mobile App** (React Native); led the **Abyss UI Upgrade** and **Oneportal Migration** (transitioning API tasks from Scala to Java).
 - Implemented the **Ask Avery "Agent Mode"** POC, featuring a multi-companion interface, and developed the **Premium Payments** home tile.
 - Developing an **AI Release Risk Predictor** that automatically triggers during **Release_cut** and **Cherry_pick** workflows to assess deployment risks.
 - Implemented logic to analyze code diffs between branches, providing a risk score (1–10) and summary to help teams evaluate release safety.
 - Completed the **AI Dojo Capstone**: Built a "Clinical Intelligence RAG System" using hybrid search (Semantic + BM25) and GPT reranking, achieving an "Excellent" grade.
 - Serve as **Dev on Call (DOC)**, managing release standups and monitoring production health via Datadog.
- Oct 2024 – **Software Engineer – Frontend, KBridge Consulting Services, Hyderabad**
Mar 2025
- Developed a payroll system and built reusable UI components with **Storybook**, increasing development efficiency by 40%.
 - Integrated **React Query** for efficient state management and API data fetching.
- Jun 2023 – **Junior Frontend Developer, Nivaah Digital Private Limited, Delhi**
Sep 2024
- Built a cross-platform e-commerce app using **React Native** and optimized web page speed by 15% using Tailwind CSS.
 - Migrated data management to **RTK Query** to reduce boilerplate and improve maintainability.
- Freelance **Frontend Developer, Various Projects, Remote**
- Implemented Server-Side Rendering (SSR) with **Next.js** and managed robust form validation using React-Hook-Form and Zod.

Technical Skills

Languages JavaScript (ES6+), TypeScript, Python
Frontend React JS, React Native, Next JS, Redux, HTML5, CSS3, Tailwind CSS
AI & Tools RAG Systems, GPT Reranking, Git, Datadog RUM, CI/CD Workflows
Database MySQL, Firestore

Education

2019 – 2023 **B.Tech in Electronics and Communication Engineering, Pragati Engineering College, Andhra Pradesh**

Activities

Coding Regularly solve challenges on LeetCode to maintain strong problem-solving and DSA skills.
Learning Continuously exploring emerging AI trends and reading tech blogs on LinkedIn and Medium.
